Dream 5	4 May, 1905, evening	Hotel San Moritz	disciplined, controlled	not sunny that day, "time moves barely at all"
Dream 6	up to 26 September, 1907, daytime usually	Berne	peaceful, patient	swirl with laughter; purple gentian catches the light and glows for a moment; through forest, Aare reflects sunlight, bends light with ripple of skin; to east, St. Vincent's tower red and fragile; Alps are snow-tipped, blending white and purple

Dream 14	17 June, 1905, Tuesday morning, early enough for streetlamps to still be on	Berne streets	disjointed, nervous, unsure	time is not continuous, seems continuous from distance but disjointed close up, slight displacements, lovers beneath street lamp, dim thought appears
Dream 15	18 June, 1905	cathedral in centre of Rome, Temple of Time, Great Clock	trapped, oppressed, enslaved	huge config of metal and glass, massive bronze pendulum glints in candlelight; before, slow sweep of stars, arc of sun, wax and wane of moon
Dream 16	25 June, 1905	room with violin	troubled	time is like light between two mirrors, bounces back and forth, countless hours; thoughts grow dimmer
Dream 17	28 June, 1905, early afternoon	picnic on bank of Aare	longing	flock of bird darts overhead, time moves slowly for children, darts by for elders, jumps and flies beyond reach
Epilogue	8:00 AM	Einstein's office, Speichergasse	empty	outside window, town is awake, feels empty, stares without interest at Alps
